225 Square Foot Exemption: A waiver will be issued if less than 225 square feet of earth will be disturbed and will not contribute sediment to lakes or streams.

Minor Earth Change: A change of minor nature that will be finished or stabilized within 24 hours of initial earth change and not contribute sediment to lakes or streams.

Normal Road or Driveway Maintenance: Grading or leveling that does not increase width or length of road or driveway by more than a foot.

Other Exemptions: Plowing or tilling for crops, agriculture, mining and logging (Support facility's, such as new access roads, staging areas, processing facilities, buildings and stockpiles are not exempt). None of these exemptions apply if the activity is a phase of site preparation for another land use or activity that would require a permit.
