To whom it may concern,

In January of 2020, the Montana Highway Patrol, along with B&B Builders, Inc. of Sidney, kicked off the long-awaited project of replacing our District 5 office in Glendive, Montana. A project that by all accounts shouldn't have worked out as great as it did...seriously.

For multiple reasons too boring to touch upon, our agency was in a place to bid this project outside of the typical window, thereby causing a delay in start of construction, and subsequently pushing concrete delivery into the cold season...ugh. Add COVID, and a spike in construction materials costs to the mix, and you have the ingredients for a project 'storm of the century'; however, it didn't turn out that way. The project was virtually flawless, and I attribute much of this to the professionals at B&B Builders.

Virtually flawless? Of course, some things must go wrong. Right? It's a big project. Yes, we had a couple of issues come up during and after the build, but none of those were due to B&B. In fact, B&B stepped up and helped mitigate those matters quickly. This kept our project on track and on budget, which resulted in a fantastic product that we couldn't be happier with.

The new office of the Montana Highway Patrol in Glendive is amazing. The product delivered by B&B is better than we imagined. I owe everyone at B&B Builders, Inc. my personal thanks as a member of the Montana Highway Patrol, and a taxpayer. Thank you.

And special thanks to Roger, Gentry and Tim...what a team.

Respectfully,
Jim Hunter, MHP-105
