

Over the past twenty years it has been my privilege to serve the citizens of Beaufort, Hyde, Martin, Tyrrell and Washington Counties as an Assistant District Attorney. I swore an oath as a prosecutor to fairly and impartially administer the law. I have been tasked with the duty to be a minister of justice and to seek justice in all cases. As a prosecutor, the ideals of fairness, impartiality and justice have constantly been before me as I have fought for justice for the citizens of our District.

During the last twenty years, I have tried hundreds of cases, ranging from murder to seat belt cases. I have also worked with many victims, listened to their concerns, and have an understanding of their desire for justice to be served. These experiences have given me a perspective that I am dealing not with just cases, but with matters involving people who desire to be heard and to see justice done on their behalf.

I now feel called to put my training, experience and knowledge to use as your District Court Judge. I believe these past twenty years have well prepared me to be a Judge who can firmly and fairly ensure the laws and the Constitution of our great State and our great Nation are followed and enforced. Further, the charge to seek justice in all cases has given me a perspective that justice is based on facts and the law, without partiality. I promise that as I serve the citizens of this District and State, that I will do so with fairness, impartiality and a drive to ensure that justice is served for all people.
