Let's follow how Egypt's North Coast has come to prominence in the last decade.

Not only in the summer life, but in important moments such as weddings which also began to use the Mediterranean Sea.

The North Coast is the ultimate holiday destination for vacationers in Egypt, especially in summer. It is the closest destination to Cairo, located only half an hour away from Alexandria. The North Coast, in fact, lacks a specific address; yet it starts at Sidi Kerir resort all the way up to Marsa Matrouh. It features an amazing weather during the whole year, thanks to its amazing location on the Mediterranean Sea. The area is full of luxurious resorts and tourist villages which fulfill the different requirements of vacationers. From Marassi, Hacienda Bay, Amwaj to Marina and Marseilia Beach; you are guaranteed to find the best home for you in The North Coast.

In the beginning of the 20th century, The North Coast has become the destination for affluent Egyptians and expatriates, who are looking for an escape from the hustle and bustle of the city. This has remarkably influenced the real estate market there. The demand for North-Coast properties for sale has increased, from chalets and villas to apartments and even studios. Real estate investors have worked hard to fulfill the needs of the buyer by providing different ranges of properties in The North Coast with variable prices, spaces, and locations.
