## WAIVER

**This form must be completed at the time of application or renewal of membership.**

**Participants under the age of 18 must have this approval signed by a parent or guardian.**

Be it known that Jersey Shore Live Steam, its members and guests (including any members owning and operating equipment at the park at Bass River Township) are engaged in the non-professional pursuit of large-scale, museum quality railroading by recreating The Tuckerton Railroad. Its members have built and maintain all displays and equipment with due respect to safety. This equipment will not be used in a manner suitable to be deemed an amusement park ride. It is used to represent historic periodic railroading in an educational manner and as such is to be operated and ridden by members only for the enjoyment of the general public. This equipment has not been inspected or certified safe by any government or official agency with the exception of our ASME National Board Certified code boilers in use on our steam locomotives that operate in public on all days the park is opened to the public. As this equipment is built and operated by its members to an unwritten national industry standard of quality for this scale of model railroading, it is not deemed or represented completely fail-safe in any way by JSLS, its members, the equipment owners, or Bass River Township.

### WORK RESPONSIBLY AND RIDE AT YOUR OWN RISK

The undersigned participant and his/her parent or legal guardian (under 18) with full knowledge of the above, does hereby execute this **HOLD HARMLESS/RELEASE WAIVER of INDEMNIFICATION** by said signer, (including for his/her heirs, successors, representatives, and assigns) and hereby agrees to release Jersey Shore Live Steam Organization, its members, employees, volunteers, agents, representatives, other organizations affiliated with the owner/operators of equipment used and Bass River Township, with all of its representatives and agencies, of any and all liability, loss, damage, cost, claim, cause of action including but not limited to all bodily injury and property damage arising out of the participation with equipment operations of any type. This indemnification is not and shall not be limited to a specific amount of time or duration of membership but shall be reaffirmed at the time of membership renewal. This does not remove any rights of parties involved but confirms the signer's knowledge that they as members of this organization are also responsible for its integrity and safe operation. Any actions brought against the Organization or its associated parties are also the financial responsibility of the signer as a member to defend.

I/WE choose to participate, operate and/or ride equipment at the park in Bass River Township.
