9/11 TRIBUTE TO FIRE FIGHTERS

We all know and love Fireman Randy, but the story behind the class that suggested he come is amazing. But first, I want to talk about unsung heroes. Unsung heroes, like many firefighters, do a big part in our lives, but are not thanked enough.

Firefighters put themselves in the face of danger to save others.

Fireman Randy and his partner came to visit. Ms. Roanna wanted her kids to make cards for Fireman Randy to thank him for all his hard work. Since it was 9/11, she wanted to pay thanks to firefighters. The crisis that happened on 9/11 took a lot of innocent lives, especially the firefighters. The firefighters didn't know that saving others in this event would cost them their lives, and become a tragic emergency.

When we heard fireman Randy was here, we were super excited. He let us go inside the fire truck. The Fire truck was awesome! Seeing all that was in the fire truck and being able to sit in the seat was exciting. We also got an opportunity to ring the fire truck bell. The whole experience was thrilling. We are looking forward to all the exciting events he has planned for us.
