A few years ago, I was sitting with my partner and we were talking about how lucky we were to live in Chester, in this day and age and with the friends and family we have. Even though both of us work in the public sector (my partner is a doctor), it was at that point where we said that we need to pay it forward more.

I looked for roles on a governing body and then looked at more ways I could help improve our little part of the world.

The frustrating thing about getting involved is how powerless you can feel to make effective change. Don't get me wrong - sometimes one person can have a huge impact and that is amazing. I think it is really important that everyone moves together towards a better future and contributes their part to it. But ultimately, we need a change in culture. Systemic change.

And how can you best do that? From the inside.

That is why I decided to stand up and do what I can about it. I'm going to fight for honesty and integrity because I think we deserve it - in fact I think we are owed it threefold after the Westminster circus of the past few years.

I hope that you can put your faith in me to pay it forward for Chester South & Eddisbury.

Rob.
