

Stones Plumbing Service acknowledges and accepts that it is our responsibility to preserve and protect the environment through the commitment and involvement of management and workers, we are dedicated to the provision of successful outcomes that are environmentally responsible to our clients, the workforce and the community.

All our employees, and where practicable Stones Plumbing sub-contractors and suppliers, will comply with and support implementation of this policy.

Stones Plumbing Services are committed to:

- Playing a leading role in the sustainable future of our water resources.
- Compliance with applicable environmental legal requirements and other environmental requirements including client requirements.
- Preventing pollution and minimising the adverse effects of our activities.
- Review our Environmental performance to ensure excellence and continual improvement in environmental performance, including conserving natural resources and ecological systems and enhancing them where practical.

Our commitments will be met by:

- Providing appropriate services, resources and infrastructure to meet our stated objectives.
- Identifying, assessing and managing our environmental risks and controlling them.
- Training and educating all workers into environmental legal, company and client expectations.
- Developing and maintaining appropriate incident response plans and minimising the adverse environmental consequences of any accidents.
- Promoting efficient use of resources and minimisation of waste.
- Our environmental management system provides the framework for developing, implementing, monitoring and reviewing our environmental objectives, targets and actions

We will achieve this status by our commitment to implement and maintain an Environmental Management System, which will be certified to the International Standard: AS/NZS ISO 14001 for Environmental Management Systems and accredited under the NSW Government Guidelines.

Within this Management System we will maintain an Environmental Management Plan that identifies any Environmental Impacts that may occur from our Business Activities. These Impacts will be eliminated or controlled as far as reasonably practicable lowest level of risk.

Signed

Edward Stone
