- **New GTi FAEMA thermal system:** System with independent groupheads to guarantee maximum flexibility and thermal stability: all brewing parameters, including duration, can be under constant control.
- **Dual delivery Management:** The lever placed above each grouphead gives the barista total control over the brewing process. Alternatively, the barista can choose digital mode by use of the 4.3" touch screen display. The lever provides perfect control of brewing and dispensing times, emphasising the sensory qualities of the coffee – its intensity, acidity and body.
- The boiler is equipped with the patented **Smart Boiler** system and it is insulated with a special material which reduces heat loss for a daily energy saving of 40% (according to DIN 18873-2 parameters).
- **1 Cold Touch steam wand with purge function + 1 AutoSteam Milk4 Cold Touch steam wand** (programmed for 4 different milk recipes).
- **1 hot water wand** (dosed delivery).
- When equipped with the special kit supplied with the Wireless grinder doser, the machine connects via Bluetooth with the grinder-doser itself to report any adjustments of the grinding and dose which are performed automatically.
- **USB** port
- **Green machine:** last generation eco-technological solutions thought to conjugate energy saving and environmental respect.

Design by ItalDesign - Giugiaro

Features	A/2	A/3
Steam wands	2	2
Hot water wands and selections	1 + 3	1 + 3
Boiler capacity (litres)	7	7
Independent coffee boilers	2	3
Capacity of each independent coffee boiler (cc)	600	600

Specifications	A/2	A/3
Width x Depth x Height (in)	31.26 x 24.1 x 19	40.71 x 24.1 x 19
Weight (kg)	71	90
Supply power	220-240V~ 220-240V3~ 50/60Hz (W) 380-415V3N~	6200 - 7400 7500 - 8800
