

PROCUREMENT

The purchasing team is an integral part of ITS, staffed by dedicated product specialists at two facilities in Chandler, AZ and Dublin, Ireland with over 100,000 sq ft of product space. Over the last three years, the purchasing team has expanded to include proficiency in more than eight aircraft types with annual spend totaling well into the eight figures. We offer procurement flexibility for your best solution, from single component purchasing to outright airframe acquisition.

We have developed in-house expertise to match our customers' requirements, utilizing in-depth analysis techniques and forecasting. This expertise allows for extensive complex parts packages to be quickly examined and offers extended. We pride ourselves on being able to close transactions, from individual components to total assets, with the quickest response time in the industry.

ITS' procurement department's overall goal is to be recognized in the industry as your primary outlet and trusted partner.

AIRCRAFT WE SPECIALIZE IN:

BOEING 737NG/CL

BOEING 757
