

**THANK YOU FOR PURCHASING THE TOUGHEST
REVERSE LIGHT ON THE MARKET!**

**THE SWITCH ON YOUR LIGHT RUNS FROM THE RUNNING
LIGHT CIRCUIT ON YOUR VEHICLE. TURN VEHICLE
HEADLIGHTS/RUNNING LIGHTS ON FOR THIS MODE TO
WORK PROPERLY.**

FREQUENTLY ASKED QUESTIONS

**HOW COME MY LIGHT IS NOT ACTIVATING WHEN
MY VEHICLE IS PLACED IN REVERSE?**

**THE LIGHT IS ACTIVATED BY THE REVERSE LIGHT CIRCUIT ON YOUR
VEHICLE'S TRAILER HARNESS. IF THE LIGHT IS NOT ACTIVATING
PLEASE TEST THE PRONG ASSOCIATED WITH REVERSE LIGHTS ON
YOUR TRAILER HARNESS PLUG TO ENSURE IT IS RECEIVING POWER.
ADDITIONALLY, YOUR VEHICLE WILL HAVE A FUSE DEDICATED TO
TRAILER REVERSE LIGHTS. PLEASE CHECK YOUR VEHICLE'S MANUAL
AND ENSURE THAT THIS FUSE IS IN GOOD WORKING ORDER. ALL
LIGHTS ARE TESTED TO BE FUNCTIONING PROPERLY BEFORE BEING
SHIPPED! A BLOWN FUSE OR CORRODED WIRE IS ALMOST ALWAYS
THE CULPRIT OF THE LIGHT NOT FUNCTIONING PROPERLY.**

**HOW COME MY LIGHT IS NOT ACTIVATING WHEN
THE SWITCH IS TURNED ON?**

**THE SWITCH IS ACTIVATED BY THE RUNNING LIGHT CIRCUIT ON YOUR
TRAILER PLUG. HEADLIGHTS/RUNNING LIGHTS MUST BE TURNED ON
FOR SWITCH TO WORK. IF THE LIGHT IS NOT ACTIVATING WHEN THE
SWITCH IS ON, CHECK YOUR VEHICLE'S MANUAL AND ENSURE THAT
THE TRAILER RUNNING LIGHT FUSE IS IN GOOD WORKING ORDER.**
