

Biology Revision Planner AS AQA

When you visit a topic put a number in the Revision box to show how confident you are feeling with the topic:

1 – Excellent, feeling confident 2 – Very good, pretty confident 3 – Good, but will feel better once it is revisited

4 – Struggled, need to revise more 5 – Poor, need to revise much more

Always revisit the lowest numbers first.

	Topic	Revision 1	Revision 2	Revision 3	Prep for Mock
1. Biological Molecules	Carbohydrates				
	Proteins and Enzymes				
	Lipids, water, inorganic ions				
	Nucleic Acids and ATP				
	DNA Replication				
2. Cells	Eukaryotic cells				
	Prokaryotic cells + viruses				
	Studying Cells				
	Cell Cycle and Cell Division				
	Transport across Membranes				
3. Exchange of Substances	Immune System and ELISA				
	Gas Exchange				
	Digestion and Absorption				
	Mass Transport: Animals				
	Mass Transport: Plants				
4. Genetics and Variation	DNA, genes and chromosomes				
	Protein Synthesis				
	Mutations				
	Genetic Diversity and Adaptations				
	Species and Taxonomy				
	Biodiversity in a community
