

ABOUT US

Forging Forward is a 501(c)3 non-profit organization. It was founded by Bobby Henline, SSG (Ret), an amputee and burn survivor. Forging Forward serves military veterans, active duty, and first responders through the various programs and services provided, all with a focus on suicide prevention.

BODY SHOP

PROSTHETIC ASSISTANCE SERVICES

PROSTHETIC ASSISTANCE SERVICES

FIRST STEP

Military veterans who need assistance with getting to their prosthetic appointments - flights to and from the prosthetic appointment, travel, transportation, lodging, meals, and or caregiver assistance during the appointment - fill out an application for assistance.

SECOND STEP

Applications for assistance are reviewed to ensure requested information is present and meets the criteria for services. Once the review is complete, a Forging Forward representative will call to speak with the military veteran. A DD-214 or proof of active duty service is required as proof of service.

THE BODY SHOP

Funds for the Forging Forward Body Shop are provided by a generous anonymous donor. All funds are required to be accounted for both by the organization and the military veteran receiving the funds.

Any misuse or fraudulent use of funds provided through The Body Shop Program by a military veteran and/or caregiver shall be subject to legal action up to and including recoupment of provided funds.

Application

THIRD STEP

Once the application is accepted, the military veteran may be asked to contact the healthcare organization to provide pre- and after appointment information to a representative of Forging Forward, to include speaking with a case manager or healthcare provider as applicable.

Once the appointment is confirmed, a budget is created in conjunction with the military veteran and caregiver (if applicable) to address flight, travel, transportation, lodging, meals, and caregiver support needs.

FOURTH STEP

The military reserves flights and lodging and forwards invoices to Forging Forward for review and inclusion into budget.

The military veteran is responsible for local transportation and meals (for any funds provided by Forging Forward, military veteran responsible to self-budget).
