1. LAND USE AND BUILDING TYPE: All lots in the subdivision referred to above shall be known, described, used and occupied as residential lots. The term "residential" as used herein shall be held and construed to exclude hospitals, nurseries, duplex houses, and apartment houses and to exclude commercial and professional uses of all types.

2. The powers and duties of the members of the Architectural Control Committee shall cease on or after September 18, 2003. 9. TEMPORARY BUILDINGS: No building materials or temporary building of any kind or character shall be placed or stored on the property until the owner is ready to commence improvements, and then such material or temporary building shall be placed within the property line of the lot or parcel of land upon which the improvements are to be erected and shall not be placed in the streets or between the street and the property line; and any such temporary building or structure of any kind shall not be used for other than construction purposes; and expressly, such temporary structure or building shall not be used for residential or sales office purposes either during construction or thereafter, and shall be removed immediately upon completion of construction or within one year after such material or temporary building was placed thereon, whichever is sooner.
