Experience

Sales Manager
AdConnect
Feb 2020 - Jan 2024
New York City Metropolitan Area

- Develop business strategies for the client
- Email campaigns, Cold calling, Lead generation
- Developed and strengthen affiliate relationships through dialogue, facilitation and administration of Affiliate Development Program.
- Develop marketing strategies to support on going affiliate relationships, drive distribution and renewal efforts.

Strategic Business Development Manager
Marketing Verge
Apr 2018 - Jan 2020
Irvine, California, United States

- Used the CEO's and Clients., LinkedIn accounts to generate leads and scale up the business.
- Appointment Setter and LinkedIn Lead Generator
- Help create content to generate $52k in sales in just a month.

Education

Notre Dame University
Masters Degree of Business Management (Marketing and Finance)
2019-2023
Notre Dame University
Bachelor of Business Management
2014 - 2018

Ranges of Site Licenses

Unlock the power of AI for your entire corporation with AI Online Developer + **Corporate & College Site Licenses**.

Cost of License	Retail Listed Price
$20,000	$90,000
$40,000	$110,000
$60,000	$140,000
$80,000	$180,000

Gains exclusive access to our extensive suite of courses, including **new** releases if license is still active and has a balance. License good for one year. Includes certification for every employee. Must be registered employee or student to get the site license deal and **Certification**. Spreadsheet of employees with email addressed required. Colleges can charge our recommend prices or use their own. **Colleges can use the retail listed price to measure their license use and balance.**

No long-term commitments required – opt for a one-year license. Contact **markkembel@gmail.com** for inquiries or to secure a license tailored to your company's needs, whether big or small.
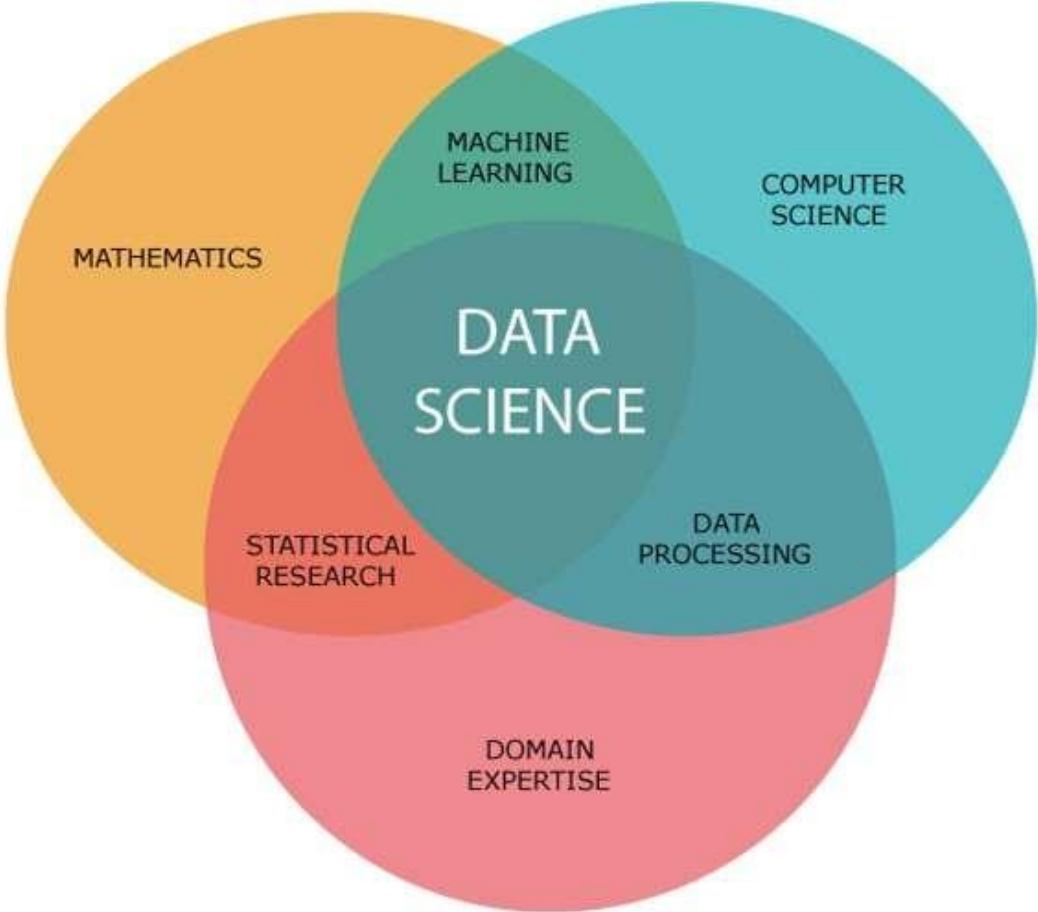

Data Science

AI Online Developer + Data Science Programs

AIOnDev+

Artificial Intelligence Program for Data Science

Data Science Courses

Lesson 1: Introduction to Data Science

Lesson 2: Introduction to Artificial Intelligence

Lesson 3: Basic Linear Math

Lesson 4: Machine Learning

Lesson 5: Data Science Python

Lesson 6: Power BI Charting

This program provides training on Basic Python and Advanced Python for free.

Artificial Intelligence Engineering Programming

Artificial Intelligence Program for AI Engineering

Technical Courses   **Included in AI Engineering**

Lesson 1: **Introduction to Artificial Intelligence**

Lesson 2: **Basic Python** programming

Lesson 3: **Machine Learning** to teach creating a Histogram

Lesson 4: **Advanced Python programming**

Lesson 5: **Basic Linear Math**

Lesson 6: **Introduction to libraries such as TensorFlow and PyTorch**

Lesson 7: **Big Data & Microsoft SQL**

AI Library Courses

AI Package all six listed below: $2,595.00

➤ **Deep Learning**   **Included in AI Engineering**

➤ **Natural Learning Process**

➤ **Robotics**

➤ **Computer Vision**

➤ **Reinforced Learning**

➤ **Language Processing**

**Become an expert and get the future of AI
Certification Tests for each AI Course included**

Programming in AI Engineering

Module 1: Deep Learning

- Neural network fundamentals
- Convolutional neural networks (CNNs) for computer vision
- Recurrent neural networks (RNNs) for sequential data
- Transfer learning and fine-tuning

Module 2: Natural Language Processing (NLP)

- Text preprocessing and tokenization
- Word embeddings (Word2Vec, GloVe)
- Sentiment analysis and named entity recognition
- Sequence-to-sequence models for machine translation

Module 3: Computer Vision

- Image preprocessing and augmentation
- Object detection and image classification with CNNs
- Semantic segmentation and instance segmentation
- Transfer learning for image recognition tasks

Module 4: Model Deployment and Production

- Model serialization and deployment
- Containerization using Docker
- Introduction to cloud platforms (AWS, Google Cloud, Azure)
- Continuous integration and deployment (CI/CD) pipelines

Module 5: Ethical and Societal Implications of AI

- Bias and fairness in AI
- Privacy and security concerns
- AI regulation and governance
- Responsible AI development practices
