CONTOUR CORRUGATED METAL ROOF AND WALL PANELS

Corrugated metal roof and wall panels offer a visual design element that can enhance a variety of architectural styles. Its look ranges from historical or rustic designs in natural or weathered metals to an edgier contemporary look in painted colors.

CONTOUR CORRUGATED 7/8" THROUGH-FASTENED PANEL

MATERIAL AND FINISHES:

- 26, 24, 22 gauge available in:
 - All of our Standard and Premium Colors with a 70 percent PDVF (Polyvinylidene Fluoride) resin-based coating system supplied as Coated Kynar 500® material with Titan® Cool Roof
 - Bare Zinalume® Plus
- 16 oz. and 20 oz. Copper
- 22 gauge Weathering Steel

All Custom-Bilt Metals Contour corrugated roof and wall panels use ULTRA-Cool® technology by PPG® Industries that reflects more heat than virtually any other coating and will not fade. Our metal roof and wall panels help earn credits towards LEED certification.

Contour Corrugated 7/8" Section Properties

Gauge	Wt. (lbs/ft ²)	S+ (in ³ /ft)	1+ (in ⁴ /ft)	S- (in ³ /ft)	1- (in ⁴ /ft)
26	1.00	0.062	0.029	0.062	0.029
24	1.24	0.076	0.035	0.076	0.035
22	1.55	0.0932	0.042	0.0932	0.042

Allowable Distributed Load (psf)
