

“Money and corruption are ruining the land; crooked politicians betray the working man.”

In 1978, Ray Davies wrote Live Life, a classic of its time.

Just ahead of the Conservative victory in the 1979 general election which saw Margaret Thatcher take office, the lyrics of this song depicted the troublesome times of the mid to late 70s perfectly.

Power cuts, rail strikes, striking postal workers, striking miners, striking refuse workers, bread shortages, petrol price hikes, diesel price hikes, mass unemployment, mass homelessness saw the re-emergence of the soup kitchen, the introduction of the 3-day working week – any of this beginning to sound familiar?

This was, in my opinion, the first full dress rehearsal for what we are experiencing now. Only difference being that this time round, only a few will be left to see the final act unless we bring the curtain down now, mid-act.

Earlier in his long and awarded career, Ray wrote the classic album Preservation Act 2, the follow up to Preservation Act 1. This album brought to life the career politician; those who would do anything to keep their careers, amass untold wealth and physical assets at the complete detriment of their fellow man.

“Money and corruption are ruining the land; crooked politicians betray the working man.”

Let’s take the above quote apart by looking at the way in which we, citizens of the world have been manipulated to comply with totally insane, unfounded control mechanisms.

1. Money

Un-elected organisations such as the World Economic Forum, International Monetary Fund, Bank of International Settlements have for decades been dictating to the general public how they can gain access to and how they can spend their hard-earned cash.

Now, together with other un-elected organisations such as the World Health Organisation and the United Nations, the world is being pushed to comply again with the probable implementation of Central Bank Digital Currency, Universal Basic Income and Digital IDs.

Without our compliance, they cannot succeed. Yet so many are willing to give up their basic rights to these un-elected organisations as they simply want to be able to live their lives without conflict.

We've already started to see the result of the BIG SQUEEZE and will no doubt very soon see the real cost of living crisis come to full bloom as excess deaths rise exponentially due to the BIG FREEZE, as many among us simply cannot afford to both heat and eat.

2. Corruption

Corruption runs rife across the globe. Not one of the so-called 'experts' is without guilt. Each of them has ties and links to Big Pharma, the World Economic Forum, the United Nations, and the World Health Organisation.

In the UK, many Covid 19 service contracts were given to friends and family of those who stood at the lectern night after night and preached to us, the general public as to how we should keep a safe distance, wash our hands, not mix with our loved ones for fear of killing granny, walk a one-way system in shops and other outlets, stay home to protect the NHS and wear a face covering.

These commands were given globally by other world leaders; the result of the outputs from the various influenza pandemic scenarios held over the past two decades. See the keyword: INFLUENZA.

PartyGate will forever sit within our collective memory. We will not forget!

The biggest corruption of all sits behind the development of the Covid 19 medical intervention. I refuse to call this medical intervention a 'vaccine' as it most certainly is not a 'vaccine'. The Gov UK website pages which detail the various options state quite clearly that these medical interventions DO NOT CONTAIN Covid 19, therefore they are not 'vaccines'.

Ex-President Obama, another linked to the World Economic Forum et al, wrote into US statute law in 2016 a moratorium banning Gain of Function research taking place on US soil. The head of the NIH and NIAID, Dr Anthony Fauci moved this research from the University of Carolina, Chapel Hill to the Wuhan Institute of Virology and gave the lead of the research to Peter Daszak, Head of EcoHealth Alliance.

This is a statement made by Peter Daszak in 2015, and reported in the National Academies Press on February 12, 2016, in which he declared: 'We need to increase public understanding of the need for medical countermeasures such as a pan-coronavirus vaccine. A key driver is the media, and the economics will

follow the hype. We need to use that hype to our advantage, to get to the real issues. Investors will respond if they see profit at the end of the process.'

This is exactly what happened. MSM towed the line, spouting the narrative again and again. Anyone who was against the narrative was silenced. This continues even now.

SARS-Cov-2 which we are told is the pathogen which causes Covid 19 has NEVER been isolated, purified, placed into a test subject, and proven to exist.

The World Health Organisation called Covid 19 a pandemic due to opportunistic circumstance. They also stopped the world for something which has not been proven to exist in nature.

Patents for a Covid 19 'vaccine' were submitted by Moderna in 2016, despite the illness not materialising until December 2019.

The lab leak theory is a complete 'red herring'. I base my opinion on what I've researched and written here.

Influenza is a member of the coronavirus family, yet we have no cure for it. All cases of influenza were rebranded as Covid 19.

Corruption at its worst!

3. Betrayal

In short, all global leaders have, sold out their citizens for profit, sheer greed, and their own careerism.

Another track on the same album, Preservation Act 2, is Artificial Man.

"Let's build an artificial world, full of artificial people. Cure all diseases, conquer pain, and monitor the human brain. And see what thoughts you're thinking, observe your feelings, secret tears, controlling everything you say and do."

Very thought provoking as we head towards Human 2.0 with the help of Elon Musk and Bill Gates.
