### A NEW DISCOVERY !

# PREDICT AND CONTROL YOUR FUTURE. USE THIS FORM TO TEST IT FOR YOURSELF

Astrology was first used as a farmers' "sun calendar" for sowing and reaping crops. We can use the same principles to time our life activities and produce our own "harvests" in accordance with the same laws of the universe. By planting "seeds" at the right time, and cultivating them, they will eventually bear fruit.

#### test : Using known past events

It helps if you choose an older person who can supply more evidence.

#### 1 - add past life events to the "life diary" form

Fill in the "Year" column starting with your Date of Birth and add known events.

- House moves
- Partnership changes
- · Job changes
- Birth of children ..... et

#### 2. CHECK THE YEARS WITH HIGHLIGHTED NUMBERS

There are certain stages when events are most likely to occur:

Stage 1 - SPRING (Seed. New beginnings. Sowing and Planting)

Stage 4 - SUMMER (Transplanting. A step forward in growth)

Stage 7 - AUTUMN (Partnerships. Cross-pollination)

Stage 10 - WINTER (The final harvest. Public "Career Peak")

## READ MY BOOK "YOUR PERSONAL LIFE DIARY" TO SEE HOW TO USE THE PROCESS IN FUTURE.

As in the agricultural year there are 12 Stages in "The Cycle of Growth" which require certain activities to eventually produce the final "crops". This depends on what seeds we sow and how well we work with it. It is a form of Karma.
