Soccer Season Overview

High School soccer season begins the Monday after Thanksgiving, and ends for junior varsity at the end of spring break. The varsity season can last as long as mid April. Once the season gets into full swing in January, players can expect to practice Monday, Wednesday, and Thursday, and play games Tuesday and Friday. This is a busy schedule, but it will help your athlete learn important time management skills. Practices are mandatory, and there is a practice make up required for any practice missed. Coaches should be notified ahead of time, and it is important to schedule all routine appointments outside of practice time.

Players will travel together to games. All players will ride to and from the game on the bus with their team. There are no exceptions. Players are expected to be in the stands and work during home games. Varsity players arrive prior to the first game of the day, and all players are released at the end of the varsity game.

Players must adhere to the dress code. Players may not have hair of an unnatural color or visible tattoos. Any summer hair colors should be of natural color by the time school starts August 9th. Earrings of all types must be removed before games, so please keep this in mind. Players are not allowed to cover piercings with tape to play, so soccer season is not the time to add a second hole or cartilage piercing.
