

APPLICATION

HDD - Horizontal Production Logging
HZ Gas Profile

TECHNOLOGY

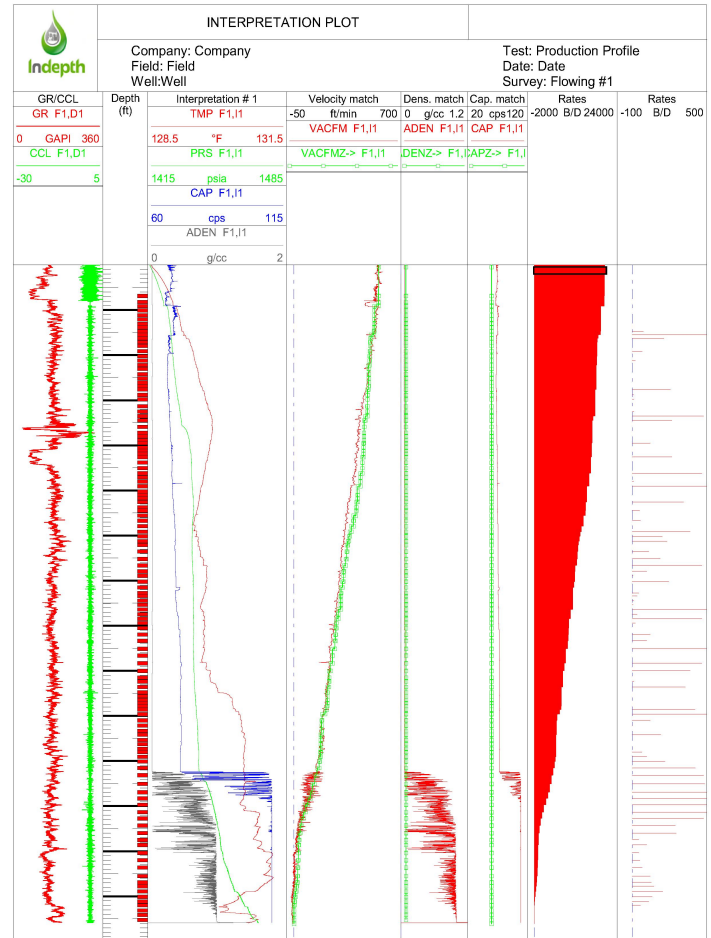

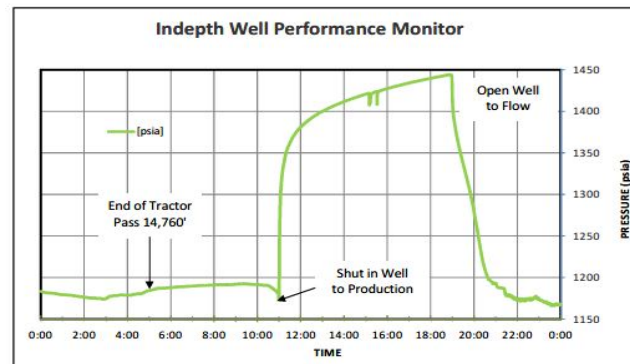

Horizontal Production Log Survey
Indepth Well Performance Monitoring

LOCATION

Texas, USA

CHALLENGE:

To image the Gas Profile of the Horizontal Wellbore in memory mode deployed with Well Tractor and Fiber Optic Wireline. Monitoring Performance during the survey to ensure representative data.

INDEPTH SOLUTION:

Indepth Production Solutions runs their HDD HZPLT String with an array of multiple sensors & flowmeters which allows for a complete image of the lateral. In addition, surface pressure recorders were ran in conjunction with the survey to confirm well performance and stability.

CLIENT VALUE:

It was determined from the Indepth Production Solutions HDD - HZPL Survey, that some liquids are trapped in the toe and the remainder of the lateral contributes rather uniformly. The operator was pleased with the profile and was able to validate the completion methodology. Trust Indepth Production Solutions experience and tool technology to deliver the results you can use to make accurate & efficient decisions regarding your interests.
