

The Business Analyst (BA) is a critical role within a project team and with more and more organisations recognizing this skill, BAs performing this crucial role need to have the necessary skills and expertise. Despite this, there has been little in the way of detailed best practice guidance that directly addresses the role, responsibilities and skills of the Business Analyst.

## WHAT YOU'LL LEARN

We are excited to invite you to join us for the one-day Business Analyst QuickStart training. This role specific training for those new in a BA role or transitioning into an BA role.

## YOU'LL COME AWAY WITH

Curious about what this field is and how it makes your way of working effective?

- ✓ Understand the role of a Business Analyst
- ✓ About tools and techniques, you can use as a Business Analyst
- ✓ The tools to transition from regular tech analyst into a learned business analyst.
- ✓ Confidence in estimating for effort and value and how this improves planning
- ✓ A kitbag of skills for breaking work into stories to support squads' iterative delivery

## WHAT YOU NEED TO KNOW AHEAD OF THE DAY

- The pre-requisite is attendance at Software development Fundamentals, or familiarity with an SDLC.
- This is a camera on training as it is highly interactive, so please plan accordingly.
- We'll be using Webex or Zoom, rather than Teams for this training. This link will open in a browser, or your Webex/Zoom app.
- This online training will run from 9:30am to 4:30pm with multiple breaks throughout the day. Please plan to set aside other contexts for the duration of the training. Please be on time for the start of the day, so that we can sort out any tech issues.

## WHAT IF I NEED TO CANCEL?

If you cannot attend, please decline the invitation to free up the space in a timely way for someone on the waitlist.

## TRAINERS

Axis Training only work with certified and professional trainers. Our staff are corporate professionals associated with Business Analysis field over seven years.

Our team of expert business analysis professionals have experience across multiple industries and business analysis programs and disciplines which makes us a convenient and effective service for any organisation. We work through virtual networks (internet) and/or in-person (Australian clients) depending on the requesting organisation.

Rest assured, we are dedicated to look after our students and their needs as a business analyst.

## COURSE CONTENT

- ✓ Business Analysis Fundamentals
- ✓ BA – Core Concept Model
- ✓ Requirements Elicitation – All about requirements
- ✓ Stakeholders – All about stakeholders
- ✓ Agile vs Waterfall Business Analysis
