

# CHECKLIST

## For Every Scene

This initial deduction sets the foundation for subsequent chapters.

The deductive approach involves **questioning the necessity of every detail**, ensuring that each scene **contributes meaningfully to the overall narrative**.

Additionally, you must consider the **logical progression of events**, ensuring a seamless flow that captivates readers.

#1	What results do I expect from the scene?
#2	Why is my writing not producing the result I want? What do I need to rewrite and why?
#3	What do I change in the scene?
#4	How do I rewrite the change?

Each scene needs to contribute to your story in some way, make sure each chapter is purposeful.
