

Please! Please! Answer the 2020 Census

The numbers are horrible. According to Mayor Dean Trantalis "About 58 percent of the nation has responded since the 2020 census was launched this spring. Yet, only 48 percent of Fort Lauderdale has done so. Our response rate ranks near the bottom of cities across the nation with a population greater than 150,000"

Take the Census Online

You may have gotten your census form in the mail. If you did or even if you didn't you can take the census on line. It will look like this.

You need to take the Census

Why should you answer the Census

So much is at stake. An undercount will negatively effect our share of government resources and representation. Don't let this happen.
