# About OTHM

OTHM is a UK-based Awarding Organization regulated by Ofqual (Office of the Qualifications and Examinations Regulation). OTHM has a network of numerous delivery centers globally to deliver their qualifications in a wide range of courses. OTHM qualifications are developed to equip learners with the knowledge and skills that employers are looking for. Pursuing an OTHM qualification will give you the opportunity to enhance your understanding of business and management and grow key competencies to tackle work projects and situations more effectively. This in turn gives you the potential to get a promotion within the workplace. Alternatively, it allows you to progress onto a Bachelor's Degree / Master's Degree / MBA top-up programme around the World.

## About AGC Education

In 2017, the training and education arm of American Global Consulting started through the partnership launched between AGC and Swiss School of Management to offer its MBA program in the GCC Region.
