Tatt's a shame Pete

27/06/2010

JORDAN'S ex-hubby Peter Andre CAN'T get rid of his "Katie" wedding band tattoo.

The 37-year-old singer, who had the name etched on his finger in Los Angeles, is shown having treatment to try and remove it in his ITV reality show Peter Andre: The Next Chapter.

But the lead-based ink, which is illegal in the UK, is proving almost impossible to remove and distraught Pete has resorted to using make-up to cover it up.

A source told us: "Having her name stuck round his finger is the last thing he wants."
