Co-Ex Pots & Trays

Co-Extruded Pots

- Co-extruded with dual color layering with a dark interior for maximum root protection from light
- Lightweight, yet durable polypropylene for greater cost efficiency
- Multi-level drain holes for efficient drainage
- Strong rims for efficient use in high-speed automated systems
- The colored exterior can be customized by offset printing to create immediate brand recognition, look for our "P" to identify which pots are capable of printing

Trays

- Variety of sizes to fit a wide range of benches, carts and handling systems
- Durable and rigid construction delivers consistent handling performance in every step of the supply chain
- Self-orienting features rotate the pots to best display printed graphics
- Flat-filler trays fit pots securely for easy evening of soil
- Designed to work on roller conveyors and automated potting systems
- Lowered sidewall ledge for added strength and greater profile of branded pots
- Works well in automated tray dispensers
- Select trays are ideal for water mat irrigation systems, see our "WM" symbol for exact compatibility

TIS66650 Universal Tray

- Self-adjusting pot cavities allow for multiple sized containers to fit in the same tray
- Perfect for spacing containers for optimal plant growth
- Tall pot wells support pots for easy handling of fully loaded trays
- Sturdy injection tray can be reused until ready to be recycled
- Features tag slots for easy identification at retail
- Use one tray to fill and/or transport plant material, open design reduces soil traps

Injection Molded Round Pots & Trays

- Multiple options in style, size, color, and packaging
- Made from polypropylene
- Bulk packaging available for most sizes, making shipping and storage more efficient and providing additional savings to the grower

Specialty Round Pots

- The Regal Azalea pots AZD06002 and AZE06501 have a higher (footed) base between the floor and the bottom of the container allows air and moisture exchange while improving drainage and minimizing pathogens
- Great for flood floors!

Elite Azalea Pots

- Designed to hold less soil volume than the Traditional Azalea pots
- Features a dual drain bottom for optimum drainage and aeration

Regal Traditional Azalea Pots

- Traditional profile and collar allows for maximum soil volume
- Dual drain bottom for better aeration and superior drainage
- Sturdy lip design for easy handling through automated potting equipment

Thinwall Pots

- Popular styles including Azalea, Standard Round, Geranium, Jumbos, and Mum Pans
- Various sizes available and customizable with offset printing capabilities, look for our "P" symbol for exact product
