Indoor Soccer Facility

Please support youth soccer and other youth sports in Helena with your advertisement that will reach an untapped market to hundreds of families several days a week - Translation: 10,000 + impressions weekly!

Objective

This facility is a place where Helenans play soccer, host indoor tournaments and allow teams to practice in the winter months or poor weather/smoky times. We also host coaching courses, referee classes, team training.

Goals

To continue to provide an indoor sports complex in a new location by receiving local support from the Helena community. It is also a goal to provide a welcoming space for youth to hang out by providing concessions, games such as foosball, games, and special events. Thanks to sponsors like Harrington Pepsi, Sussex Construction, Point S Tire; we met our goals the last few years and provided a very busy and popular facility since 2018.

We have many options to fit any budget to support the facility. We are currently selling Advertising Space.

Boundary Wall Graphics: a 4' high wall surrounds the playing court. Ad space available.

There are numerous improvements such as structural reinforcements of the mezzanine, smoke stack stabilization or removal, ADA accessibility, mechanical system repairs, deferred maintenance, and many more.

Boundary Wall Graphics: Our 4' high wall surrounds the playing court, meaning everyone is seeing it all the time. Ad space is a great way to showcase your business to parents and children every day of the week. Space is sold for a one year period, renewing each fall. That is over 10,000 impressions, averaging less than 4 cents per impression to a targeted audience. That is a rare find! Buy NOW during our campaign and get an extra 6 months! Good thru 3/30/24

All graphics need to be sent digitally to Bridget Johnston at qfcmt@gmail.com. When sending your graphic, if you have ordered multiple ad blocks, please specify if you want them grouped together to create a large graphic or if you'd like multiple ads spaced around the wall. Vector files are preferred for best quality.
