

Apfpm PMO (Project Management Office) Recognition Award

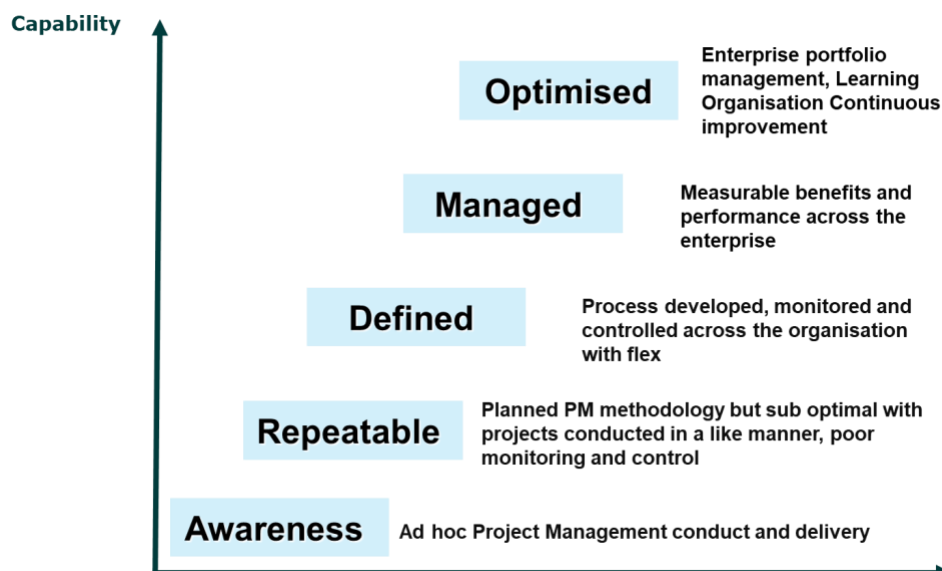

Given the critical role PMO's undertake in any organisation, the apfpm would like to Recognise and reward organisations for their efforts in building and maturing their **PMO - Project/Program or Portfolio Management Office**.

The apfpm PMO award is based on project best practice and is an excellent baseline towards recognising project management capability. By being recognised your organisation will:

- Individual organisations are recognised for their efforts and time in maturing their project management practices at a Level 3.
- Recognition of your project/program/ portfolio management office governance/processes
- Join an elite number of organisations that have been recognised for their PMO
- Demonstrate continuous improvement in project, program and portfolio management
- Enhance your stakeholder confidence in your ability to deliver and support projects
- Obtain recognition for your team's hard work

Award Level

The award is issued to organisations that **achieve a maturity level of 3**, based on the 1-5 international maturity scale. This is a great way to demonstrate the organisations PMO achievement via external recognition from a reputable project management body that spans the Asia Pacific.

The process – Provided you achieved a level 3 maturity

1. It is the responsibility of the organisation to undertake an assessment of their PMO (either Project, Program or Portfolio level) **by an independent and credible PMO assessor** (based on credentials)
2. The independent report produced by the PMO Assessor (provided it is level 3) is then forward to apfpm with the application form and payment of AUD\$ 1,800.
3. Apfpm will review the independent PMO report prepared by the independent assessor/organisations, followed by a discussion between the organisation and an apfpm representative to verify the report and results.
