

# Nozzle Options

## Wide Angle Nozzle

This nozzle provides a wide spray pattern for in close use on abrasive belts. This nozzle generally will provide a 5" wide line of MerLube when mounted 2" from the belt.

wide angle nozzle spray pattern

The capillary line must be installed and adjusted to within 1" of the nozzle orifice. This will create a proper venturi.

1/8" ID nylon tube

Loc-Line Nozzle 12", 18", & 24" lengths

wide angle to 1/4" L.D. hose

wide angle to Loc-Line

wide angle to copper or stainless

compression fitting

Magnetic Base Mount

Any MerLicator nozzle will fit this mount.

Copper Nozzle 1/4" - 1/4" O.D.

Stainless Steel Nozzle 1/4" - 1/4" O.D.

6-1" to 2"
