

Hypercharge Cloud Platform.

Hypercharge's cloud solutions fully manage and operate your EV charging stations with smart features that **maximize success.**

Administration Console.

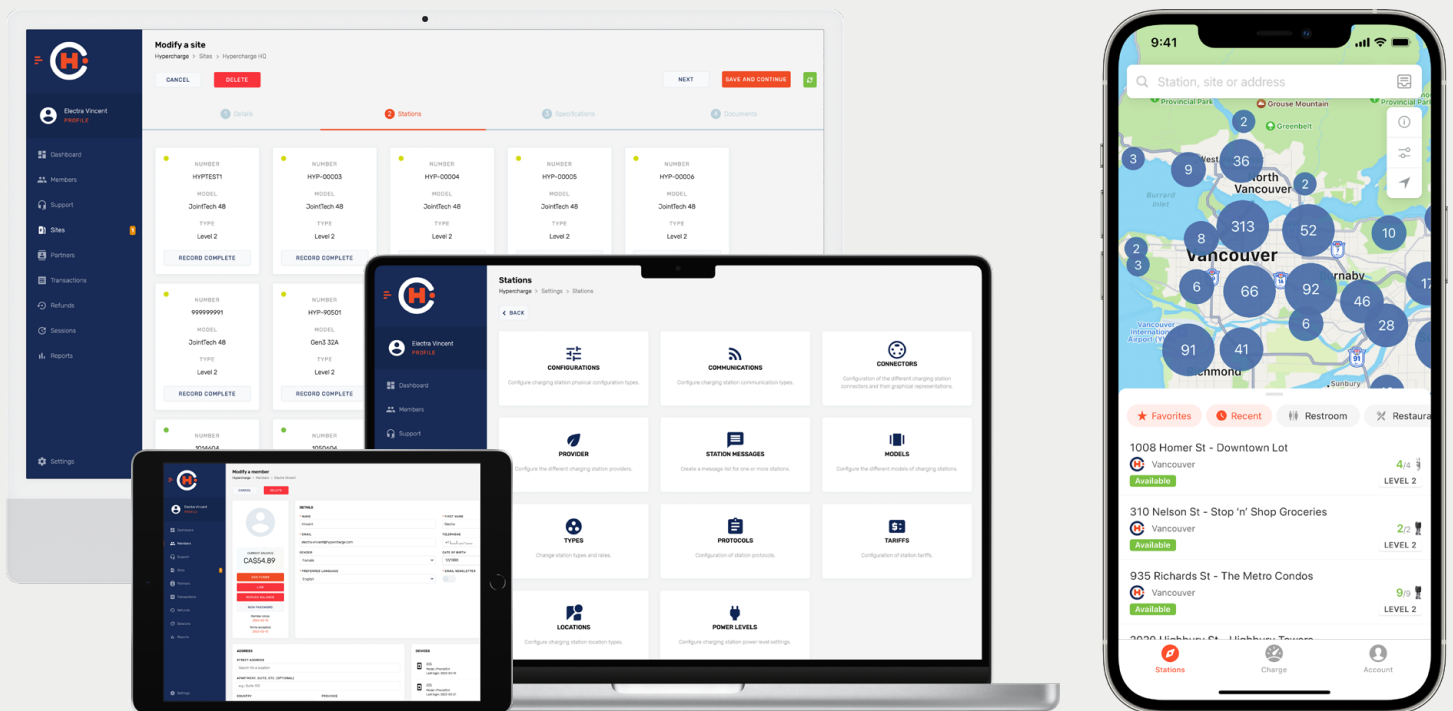

Support EV drivers accessing your charging stations with complete control via the cloud-based admin web portal:

- Multi-Site Management, Reporting, & Site Analytics
- Real-Time & Historical Usage Information
- Integrated Payment & Billing System
- 24/7/365 Monitoring & Call Centre Support
- Promotional Push Notifications to App
- Custom Branded Platform Available Upon Request

Mobile App.

Discover and activate charging stations on the Hypercharge Mobile App, designed for ultimate ease-of-use & speed:

- Locate nearby charging stations from both Hypercharge and Roaming Partners
- See Real-Time Availability for Entire Network
- One Tap to Start Charging & Monitor Session
- Account Management with Digital Wallet
- Direct Customer Support for Immediate Driver Assistance
