### Disneyland Paris

I have been to Walt Disney World in Florida many times. I also went to Disneyland in California during 2014 and Disneyland Paris in 2018. My family and I were on a vacation in Paris and we decided to spend a day in Disneyland Paris. We went to both of the parks and we went on many rides. Some of them are classics, such as Pirates of the Caribbean and It's a Small World. We also went on other rides that are unique to Disneyland Paris, such as Crush's Coaster and Remy's Ratatouille Adventure. Remy's Ratatouille Adventure is also now in the French Pavilion in Epcot's World Showcase Lagoon. There was also a fireworks display at Disneyland Paris but they started at 11:00 pm so we did not stay. We stayed in an apartment complex in Paris so we took public transportation there. It took a little while to get back. After the parks, we ate dinner at Planet Hollywood in the Downtown Disney area.

# How the Grinch Stole Christmas

Elizabeth L.

The original animated How the Grinch Stole Christmas is my favorite holiday movie to watch. When I was little I would watch it on a DVD player while eating dinner, and while my brother was having physical therapy done. I would watch it year round and I always found it hilarious. Don't get me wrong, the other Grinch movies are good, but I love the original Grinch from 1966. The original Grinch movie just felt wholesome and was not done over the top like I feel like the other versions are. I prefer the opening of the original movie and I felt like it just really set up the entirety of the movie and explained why he was the way he was. I also like the original music from the movie because it just sounds better than any of the music in the other Grinch movies.

## The Funnies

By Isaac G.

**Why was the little snowman sad?** Cause he had a meltdown.

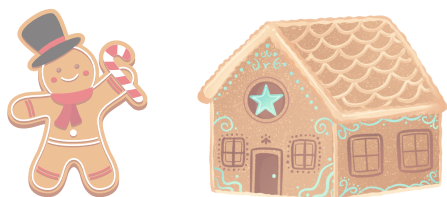

**What do snowmen eat for breakfast?** Frosted Flakes.

**What's the best way to scare a snowman?** Talk about global warming

**What does a gingerbread man put on his bed?** A cookie sheet!

**What's the weatherman's favorite food in winter?** Brrr-itos!

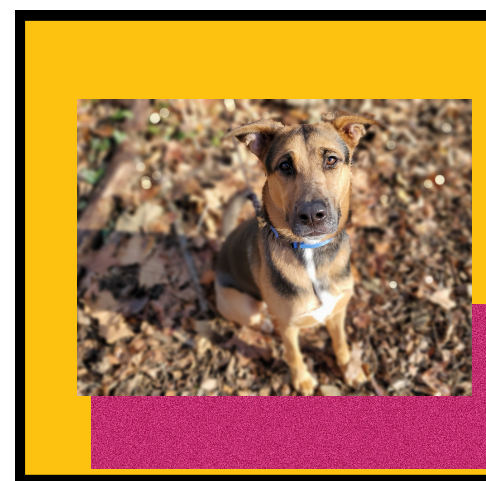

**What does a barbershop serve in winter?** Cold cuts!

## Pet Of The Month - Maisy

Our pet of the month is Maisy. She is a one year old Shepard mix. She is ready to start the new year as your best friend!

Maisy is famous for her "zoomies" but will settle down once she gets them out. She is a smart girl and seeks out your affection- she's a mush! She is a sweet girl that would thrive in an active household with dog experience and older children.

If you are interested in learning more about Maisy, please call the Town of North Hempstead Animal Shelter at 516-869-6311 or email [animalshelter@northhempsteadny.gov](mailto:animalshelter@northhempsteadny.gov) to request an adoption application.

## Did You Know: Tasmanian Devils

By Daniel A.

The Tasmanian Devil is known as Sarcophilus. This animal is a mammal and carnivore. Its average lifespan in the wild is up to five years. Its size varies between 20 to 31 inches. It weighs between 9 to 26 pounds. Tasmanian Devils are the largest carnivore, meat-eating animals. Tasmanian Devils live in Australia. In fact, Tasmania is the only place where they are found. I like Tasmanian devils because I think they are cute. I think they're cute because of how fluffy they are. They look like baby bears because of their coarse brown and black fur. They have a great sense of smell and sight which helps them avoid predators and locate prey. When they have babies they are born very little and are about the size of a raisin. In the 1990s a disease called the devil facial tumor disease started killing off thousands of Tasmanian Devils. The fatal condition is a rare contagious cancer that causes lumps to form around the animal's mouth and head. Scientists are trying hard to stop the number of deaths of these animals. Overall Tasmanian Devils are interesting because they are cute and fluffy.
