Book amazing live music that doesn't harm the planet

Net Zero Live Music

Thank you for considering booking live music for your big day with **Bespoke Live**. Sustainability is at the heart of what we do and the aim is for the business, and all our activities, to be Net Zero by 2025. We are the only live music provider accredited with the **Sustainable Wedding Alliance**; for which we proudly hold membership. We encourage all of our clients to consider how to make the live entertainment at your wedding / celebration event a genuine partnership between you, us and the planet!

For all bookings, we make the following commitments as standard;

- we will carbon-offset all car / van travel for our amazing musicians on performance dates
- we will provide a 'performing sustainably' checklist for our musicians as part of our briefing for your booked performance. They will be exploring a range of things like; how to minimise energy use while rehearsing and at the venue, minimising transport emissions on the day, using re-filled water and making sustainable dietary choices on the day
- we will explore opportunities to deliver aspects of the booked performance acoustically, or with low energy use

We have a range of chosen partners and Sustainable Entertainment Packages to consider as part of your booking.

Tree Sponsorship / UK Nature Recovery

In partnership with:

As far as we know this is a world first; we can arrange to plant a tree for every song performed at your wedding! Through our partnership with [The Future Forest Company](#), we can also arrange for land across their re-wilding (Nature Recovery) projects in Scotland and England to be extended.

Tree Sponsorship for each song performed is a great option if you're booking a band; who will invariably play at least 30 songs at your wedding. There is another option to sponsor ten trees. What a brilliant legacy from your wedding day to know that a patch of forest, and all the benefits this brings to the planet, is there because of your celebration! We can add this package to your quote based on estimated number of songs.

UK Nature Recovery (sometimes known as re-wilding) funds restoration and regeneration of land to tackle biodiversity loss; from wetlands and peatland to wildflower meadows! This is a great option if you're booking musicians for a proportion of your day, or by the hour. You can support a 6m x 6m area of land as part of your booking or choose a smaller area on a per hour rate. What an amazing gift to the natural world, and all thanks to your celebrations! We can add this package to your quote based on estimated performance time.

About [The Future Forest Company](#):

The organisation exists to remove carbon from the atmosphere, restore nature and fight climate change. They manage 3000 hectares across 12 UK sites, such as Glenaros on the Isle of Mull, Leadloch in West Lothian and Swarthghyll in Yorkshire. Having planted more than 1 million trees, they are also restoring natural peatland which absorbs vast amounts of carbon. The UK has lost half of its biodiversity, and their projects do amazing things to address this; protecting species such as the red squirrel and establishing species-rich wildflower meadows as habitat for pollinators. Bespoke Live are proud to be one of The Future Forest Company's green business partners.

Climate change donation

In partnership with:

Simply choose how you want to support tackling the climate emergency by making a donation to one of our three global charity partners. If you donate, we'll also donate 1% of the overall booking fee. Our partners are;

- [Greenpeace](#) defends the natural world and works towards a green and peaceful future; from campaigning to end fossil fuels to introducing a Global Ocean Treaty

- [WRAP](#) (Waste and Resources Action Programme) is working around the globe to make the world a more sustainable place through circular economy principles

- [Rainforest Alliance](#) is fighting against deforestation and building economic opportunities and better working conditions for people in rural communities across 58 countries

On the greatest day of your lives, you can support the future of those in need.

We'd love to talk these options through on our next call.
