

REGNUM ACADEMY FOR DOWN SYNDROME

WALK IN YOUR CALLING

I am writing to you today with a very special request.

Regnum Academy (NPC) (“Regnum Academy”) is a school created and operational since the 2020 lockdown. Regnum Academy focuses on educating pupils with Down syndrome and providing them with the necessary skill set to function optimally in the outside world. Down syndrome is a genetic condition that affects approximately 01 in every 700 babies born worldwide; thus despite this fairly general genetic occurrence, many individuals suffering from Down syndrome are stigmatized, ostracised, and face numerous challenges on a daily basis, that we cannot imagine or are not even aware of.

Regnum Academy is dedicated to providing a nurturing and inclusive environment for its pupils suffering from Down syndrome, with a tailor-made curriculum that caters for and supports the pupils’ specific needs and/or strengths – with a specific focus on developing their cognitive, social, personal, inter-personal, domestic and emotional skills, for life outside of the classroom. With the aforesaid curriculum and training, Regnum Academy strives to ensure the pupils are independent and self-sufficient members of society.

In order for Regnum Academy to fulfill its goal to provide and send out independent, self-sufficient members of society, and to provide for the needs of its pupils, support, and funding is dire need. We humbly place our cause and request for funding (whether in money, supplies, advertising/marketing or support in any way) at your doorstep, and humbly request your assistance in any way, shape or form you can contribute.

REGNUM ACADEMY FOR DOWN SYNDROME

WALK IN YOUR CALLING

Any money received will be used in, amongst other things, improvements in and around the school, community projects, and financially assist pupils and their families who desperately want and need education but cannot afford the necessary tuition. Should you wish to see or require a breakdown of how a contribution will be dealt with, same can be provided upon request.

Any support, whether big or small will really make a big difference in the lives of the pupils at Regnum Academy, as well as their families. The contributions will enable Regnum Academy to help its pupils reach their full potential and provide hope to a group of people, to a community that has too long been ostracised and marginalised.

For any further questions or queries, please feel free to reach out to Ms. Anika de Kok.

Thank you for your consideration and we look forward to hearing from you.

Yours faithfully,
Principal and Owner

A.de Kok
