

Natural Selection

By C.E. Warner 1-31-22

**Nature has developed a survival path.
Advance best intelligence and strength,
allow limited suffer nature's wrath.
Species ultimately extends its length.**

**Animal kingdom cruelly simple.
Limited and weak abandonment face.
Survival demands remove the cripple.
Only strong will be allowed advance the race.**

**Human species shows a different way.
Defend the simple, protect the afflicted.
Heed what deliberate stupid say.
Outcome can be easily predicted.**

**Man is only species to ignore signs
of the obvious destructive declines.**
