

The Power of Delusion

By C.E. Warner 10-8-21

**Truth lives independent of men's errors,
history cares not for human impact.**

Reality comes with it's own terrors.

Price for acceptance heavy and exact.

Warping reality brings needed peace.

Truth's logic necessary sacrifice,

alternate universe allowed increase.

Intelligence blocked is basic asking price.

No subterfuge ploy too great a burden.

Anger and rage satisfied by story.

**Sheltered mind behind fantasy's curtain,
unused in narrative's inventory.**

**Whether objecting to present or past,
only a rebuilt memory is asked.**
