

## **United States of America**

By C.E. Warner 8-20-21

**Man's story frighteningly consistent.**

**Ascend, conquer, destroy, and subjugate.**

**My civilization insistent.**

**Any other culture's rights will abrogate.**

**America, born in normal conflict.**

**Pattern repeats, ignore other's concern.**

**She survives, everyone else evict.**

**Systematic history hard to unlearn.**

**Every man equal, noble word's state.**

**Surprising, she starts down road to fulfill.**

**Bloody fight human nature to negate.**

**Show every culture, religion good will.**

**America's difficult mountain climb,**

**Subjugate personal for other's time.**
