

# GRILL GUARD®

## Connect & Protect

April 2022

*"Providing a connection between communities through sports, activities, gear, and events with custom fit sports mouthguards"*

### Meet The Team

*Brad Cummings*

I had my front tooth knocked out while playing basketball. I never wore a mouthguard because it seemed impossible to happen to me. After multiple years of treatment I realized I was lucky. I had family and financial support that got me through what would have cost over \$10,000. Now I am a dentist with the ability to give back to others.

*Maria Yeaton*

I joined this nonprofit foundation because I believe in the cause, as I am a full-time practicing dentist in California. Trauma is one of the most serious dental problems that we see quite often. This organization is here to help provide mouthguards to athletes in order to prevent damage that can have long-lasting effects.

*Joe Ready*

I joined in 2020 to help athletes stay safe and contribute to a new and upcoming cause in the sports industry. Being an athlete myself and now a father of athletes to come, I understand the financial and safety commitment needed. Here I can help protect athletes from injuries and bring communities together.

### 2021 Reflection

In 2021, we partnered with Delta Dental of Oklahoma Foundation to accomplish a successful year of giving:

- 84 Custom Sports Mouthguards -
- Tackle Football / Basketball -
- 5 Different Schools -
- Girls and Boys -

All **FREE** to athletes in need!
