EXTREME Weather Is A LOW Probability

But HIGH Risk Event

READY, SET, GO! SAFETY **PROCESS**

READY STEP

Storm Prediction Center, located in the National Weather Center in Norman, OK assesses threats several

Understanding Severe Thunderstorm Risk Categories

THUNDERSTORMS (no label)	1 - MARGINAL (MRGL)	2 - SLIGHT (SLGT)	3 - ENHANCED (ENH)	4 - MODERATE (MDT)	5 - HIGH (HIGH)
No severe* thunderstorms expected	Isolated severe thunderstorms possible	Scattered severe storms possible	Numerous severe storms possible	Widespread severe storms likely	Widespread severe storms expected
Lightning/flooding threats exist with all thunderstorms	Limited in duration and/or coverage and/or intensity	Short-lived and/or not widespread, isolated intense storms possible	More persistent and/or widespread, a few intense	Long-lived, widespread and intense	Long-lived, very widespread and particularly intense
1			8		
Winds to 40 mph Small hail	Winds 40-60 mph Hail up to 1" Low tomado risk	One or two tornadoes Reports of strong winds/wind damage	A few tornadoes Several reports of wind damage	Strong tornadoes Widespread wind damage	Tomado outbreak Derecho

^{*} NWS defines a severe thunderstorm as measured wind gusts to at least 58 mph, and/or hail to at least one inch in diameter, and/or a tornado. All thunderstorm categories imply lightning and the potential for flooding. Categories are also tied to the probability of a severe weather event within 25 miles of your location.

Severe Weather Info for: Glendale MHP Inc

Severe storms are possible in your area today. Remain alert and stay aware of weather conditions.

SET STEP

A watch means dangerous weather is occurring now, requiring immediate safety action.

A) True

B) False

A watch means dangerous weather is occurring now, requiring immediate safety action.

A) True

B) False

So that you know the difference...

Tornado Warning

Watch – Issued hours before a possible threat Warning – Issued minutes before an imminent threat

Confusion of those terms has cost lives!

Issued 6 to 8 hours before storms may develop.

There is the potential for severe weather. It's your "heads up" to prepare.

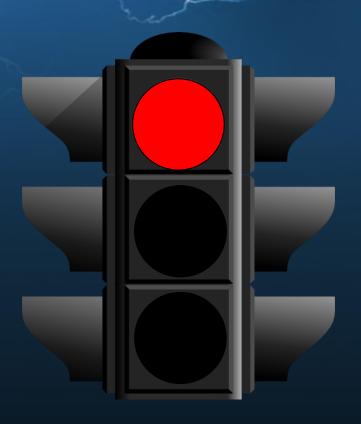

Tornado Watch for Location:

THA Office

Tornadoes are possible in the next few hours. If a warning is issued, know where to shelter.

GO STEP

12 Years Ago

Something Very Important Happened

That Few People Know About

If a tornado warning is issued for Tunica county, you should assume it applies to the entire county:

True

False

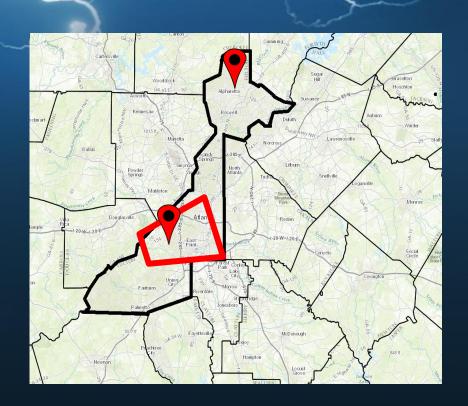

If a tornado warning is issued for Tunica county, you should assume it applies to the entire county:

True

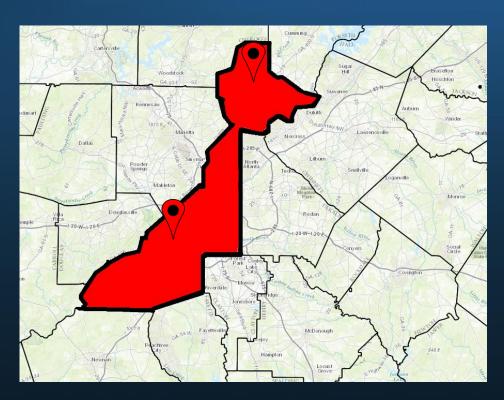

False

Warnings Are Now **VERY** Precise

Sirens, Phone Apps & Weather Radios Alert The Entire County

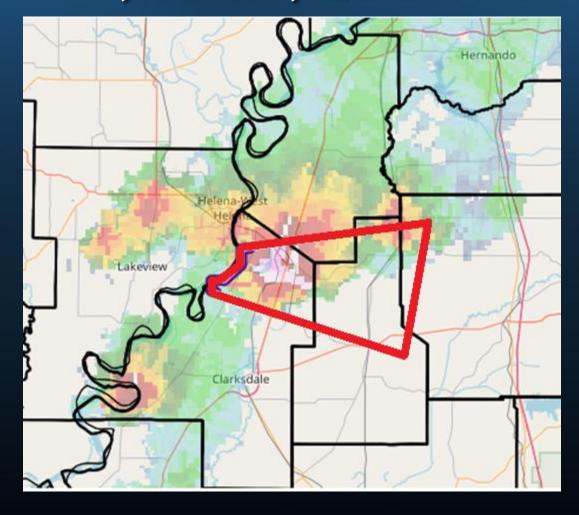

Warning touches parts of 4 counties: Coahoma, Tunica, Quitman & Panola

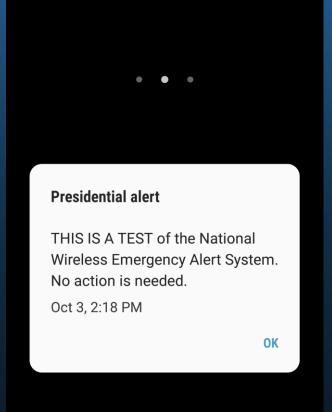

EVEN WEA HAS FLAWS

3 Main Types Of Warnings

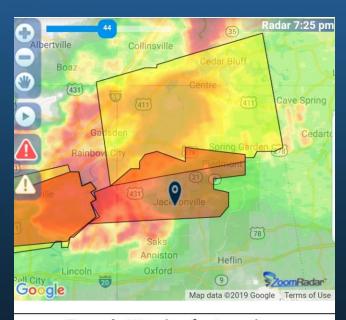

TORNADO WARNING

 Tornado has been sighted or has been detected by radar

 Tornadoes can and do occur WITHOUT a watch in effect

Tornado Warning for Location: University Estates

TAKE COVER NOW! A tornado warning is in effect for your area.

BULLETIN - EAS ACTIVATION REQUESTED

Tornado Warning

National Weather Service Birmingham AL

517 PM CDT THU MAR 14 2019

NOT ALL TORNADOES ARE THE SAME

EF1: 86-110 mph EF2: 111-135 mph

EF3: 135-165 mph EF4: 166-200 mph EF5: >200 mph

When the NWS issues a tornado warning, they know how strong it is.

True

False

When the NWS issues a tornado warning, they know how strong it is.

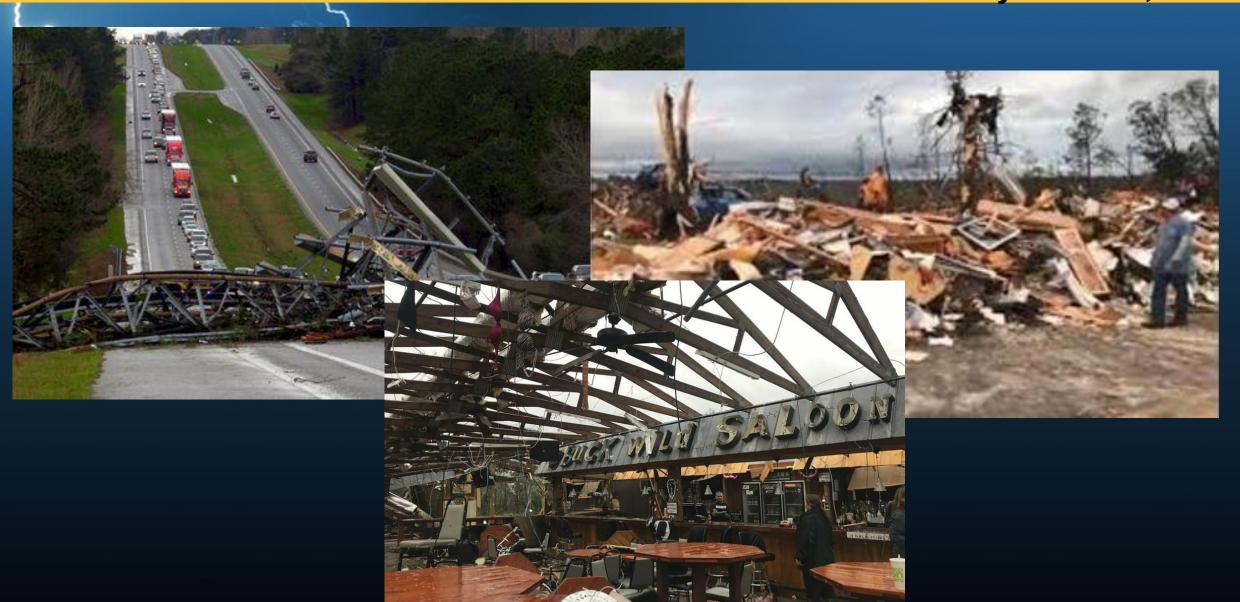

True

False

TORNADO EMERGENCY

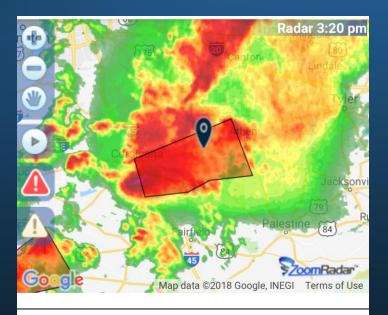

Lee County March 3, 2019

Presented to the 2019 Tunica Show

Tuesday, March 26, 2019

Information in this presentation is considered to be confidential.

"If you don't have a plan, you are part of someone else's plan, and in that plan you are not the priority."

Brad Huffines, FEMA EMI Instructor of Emergency Management and Emergency Public Information

- A) I live where disasters are possible any moment
- B) No, disasters are infrequent, so I don't consider them
- C) Local government and the media incite fear, so many ignore the threats

Have you personally experienced a disaster?

- A) Yes, I have
- B) No, but close family/friends have
- C) My town/county has and has and it impacted my life.

I feel confident government will solve my post-disaster challenges:

- A) Strongly agree
- B) Agree slightly
- C) Neither agree or disagree
- D) Slightly disagree
- E) Strongly disagree

Are you confident in your community's plan?

- A) Yes we have a great plan and test it regularly
- B) We have a plan on paper, but never test it
- C) We have a plan in mind, but its not written down
- D) I don't have the time/expertise to organize it

"No plan survives the first shot from the enemy."

Helmuth Von Moltke

It won't happen to me... is NOT a plan!

COMMUNICATION CHALLENGES

Gov't mass-notification systems
Local and Federal

Smart-phone 'Wild Wild West'

Social Media inaccuracies / click bait

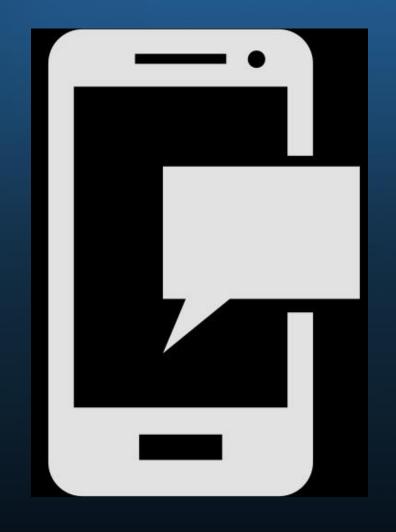

TELECOMMUNICATION NOTIFICATIONS

Timely phone calls

Text messages

Email from trusted sources

Phone apps from trusted/tested sources

MAKING A PLAN – THE WHEEL

IDENTIFY RISKS

MONITOR, EVALUATE AND MODIFY THE CRR

PRIORITIZE RISKS

IMPLEMENT THE COMMUNITY RISK REDUCTION PLAN

DEVELOP STRATEGIES
AND TACTICS TO
MITIGATE RISKS

PREPARE THE COMMUNITY RISK REDUCTION PLAN

RUN THE WHEEL BACK AT HOME

Make a new plan if there isn't one

Compare your existing plan with what you learned from the wheel

Plan to re-evaluate the plan annually

NOTIFICATION: EFFICIENCY IN A HURRY

- Precise warnings for exact locations
- Instant notifications
- Phone calls for lifethreatening emergencies
- Customizable messages
- Single Platform
