

# The Courts *Part 2* @superlunaristarot

## *Pages are the element of Earth (grounded in) + the element of suit*

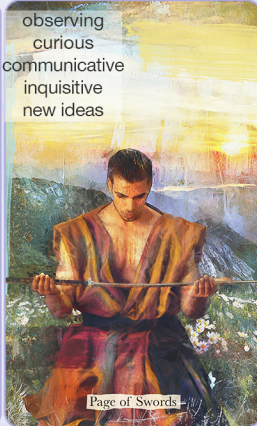

The newest energy of the courts and young at heart, Pages can sometimes represent children or messages. They are at the early stages of their mastery and have a fresh perspective. They may feel a bit naive or intimidated by their naiveté, but they are very grounded, eager, innovative, inquisitive, open hearted learners.

Fire - New creative energy, adventure, change. An enthusiastic fire-starter full of life. Exciting news/action.

Water - New emotional energy, intuition or creativity. A romantic artist or dreamer. Loving/intuitive messages.

Air - New energy in communication, ideas, enthusiasm. A talkative, uninhibited idea person. Gossip or info news.

Earth - New energy in the material world or spirituality. A philosopher looking inward. News about money/work.

## *Knights are the element of Air (movement in) + the element of suit*

The movers and shakers of the courts, Knights are the most active and energetic and can sometimes represent teenagers. Knights are more advanced than pages but still striving for mastery in their suit. They are active and energetic, represent growth and change and are passionate in their pursuit.

Fire - A free-spirited & passionate adventurer who thrives on challenge and takes the road less traveled.

Water - The romantic hero who strides slowly to take life in while following their heart and dreams.

Air - The quick-acting intellectual knight who boldly charges forward & stirs things up with info and ideas.

Earth - The slowest, most grounded & methodical knight who stays behind to plan and tend to the homestead.
