BV30

"The next generation compact bill acceptor"

- Attractive bezel illumination (RGB options)
- Exceptional value
- Enhanced sensing & security
- Ideal for low value transactions

FEATURES

- Improved optical & mechanical anti-strimming
- Improved note sensing - UV & reflective
- Exceptional value
- Proven field reliability
- Easy maintenance, free firmware updates, remote download SMART data compatible
- Faster note processing
- Attractive, compact design

BENEFITS

- Enhanced security
- Genuine note detection and protects against fraudulent notes
- A bill acceptor for the price of a coin mech
- Lowest cost of ownership
- Future proof
- Takes more cash
- Ideal for low value transactions

“Designed for 66mm bills”

- Designed specifically for 66mm bills
- Cashbox options to suit all applications
- Quick transactions
- Ideal for amusement & vending applications

FEATURES

- Fixed 66mm width bezel
- Proven field reliability
- Exceptional value
- Easy maintenance, free firmware updates
- MDB power supply unit & 110V options

BENEFITS

- Designed specifically for single width bills
- Lowest cost of ownership
- Fast repayment of initial investment
- Future proof - quick & easy updates via PC or handheld programmer
- Ideal for amusement & vending applications

“Enhanced sensing technology”

- Exceptional field reliability
- Enhanced sensing technology
- Cashbox & bezel options to suit all applications
- Future proof
- Modular design - recycler or ticket printer available

FEATURES

- Various cashbox and bezel options
- Proven field reliability
- Enhanced sensing technology = high acceptance rate for multi-currency
- Easy maintenance, free firmware updates
- Over 100 different world currencies accepted
- Modular design - recycler or ticket printer available

BENEFITS

- Versatile validator, suitable for all applications
- Lowest cost of ownership
- Takes more cash
- Future proof - quick & easy updates via USB, PC or handheld programmer
- A truly global product
- Ability to add note recycling or ticketing

“Compact stackerless banknote validator”

- Compact stackerless design
- Enhanced sensing technology
- Proven field reliability
- Future proof
- One build standard for global applications

FEATURES

- Compact, stackerless note validator
- Proven field reliability
- Over 100 different world currencies accepted
- Industry standard protocols
- Easy maintenance, free firmware updates

BENEFITS

- Suitable for most applications
- Lowest cost of ownership
- A truly global product
- Simple integration
- Future proof - quick & easy updates via USB, PC or handheld programmer

NV11+

“Riciclatore di banconote”

- Riciclatore di banconote compatto
- Comprovata affidabilità sul campo
- Garantisce significanti riduzioni di costi di interventi
- Ottimizza l'efficienza operativa

CARATTERISTICHE

- Riciclatore di 30 banconote di una denominazione
- Comprovata affidabilità in diversi mercati Europei
- Significativa riduzione dei livelli di fondo cassa
- Facile mantenimento, aggiornamenti firmware gratuiti
- le banconote presenti nel riciclatore possono essere trasferite nel cashbox

BENEFICI

- Ottimizza l'efficienza di cassa e riduce la mancanza di denaro
- Riduce l'investimento di denaro all'interno delle macchine
- Riduce il livello di denaro necessario all'operatività della macchina
- Aggiornamenti gratuiti tramite USB, flash card, PC o palmare
- Riduce i costi di interventi dell'operatore
