CoNNECT Update

We are currently applying for an extension to keep recruitment going until **December 2023**. The trial only needs to recruit **29 more nerves** to reach it's recruitment target of 240 nerves.

We'll be holding our next **Clinical Skills lab training** on **20th February 5pm-8pm**, where you can come and practice your microsurgery skills – if you are interested in taking part please email Happnresearch@uhb.nhs.uk

New trial opening!

The FIRST Study is being led at UHB by Mr Tahseen Chaudhry and our Hands Therapist Suzanne Beale.

The study is looking at splinting for **finger flexor tendon injuries in Zone 1 or Zone 2**.

We opened to recruitment in December and have recruited our first 2 patients and hit our January target in the first week of 2023!

UNDER Study

The UNDER Study grant officially commenced at the beginning of January. Investigator training is being organised and dates will be announced in due course

Electronic Data Capture

Following some amazing efforts by our Dutch PhD students, Mirte and Romy, we will be designing and building REDCap to mirror Erasmus' GEMsTracker. We hope that this will be ready to pilot by the end of March
