

CATHOLIC ECOLOGY CENTER

Connecting to Christ and His Creation

CatholicEcologyCenter.org

MISSION:

The Catholic Ecology Center works to deepen faith and foster a stewardship ethic through hands-on encounters with the natural world.

We are a ministry of Laudato Si' Project.

FAITH & RETREATS

Our unique programming integrates the truths of our faith with a love and care for our common home. We utilize the beautiful gifts of creation around us as a conduit to draw people deeper into faith and a greater respect for the gifts God has given us.

EDUCATION

We spread the Gospel message through hands-on programming focused on faith, ecology and our relationship with the world around us. We challenge people of all ages and backgrounds to live out their faith, care for our common home and grow deeper in their love for Christ and His Church.

STEWARDSHIP

Stewardship is a fun and tangible way to put our faith in action. Stewardship projects like woodland restoration, prairie plantings, trail maintenance or gardening, are a great way to get students involved for service hours or as part of a retreat. These projects are also an avenue to involve adults and families and remind us that we are called to care for creation everyday.

RECREATION

Recreational outings for youth, adults and families connect them with the natural world and allow for opportunities to experience God and His creation. Time outside helps us quiet our minds and hearts so we can better live out the call God has for each one of us.

CLARE GARDENS

Clare Gardens, a ministry of Milwaukee Catholic Home, grows organic produce for retirement communities, food pantries and farm to table events at the CEC. You can get involved by volunteering for Clare Gardens.
