

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

ACIANTHERA HYSTRIX / PLEUROTHALLIS RADULIGLOSSA

Origin: Brazil

Temperatures: Warm to cool growing miniature creeping size orchid species

Light: Shade

Watering & Fertilizing: Regular watering and fertilizing year-round

General care: This beautiful creeping Pleurothallis is rarely seen in cultivations – super cool growing habit and very interesting blooms. Grows best under cool to warm conditions, in shade, good air movement and high humidity. Can be grown mounted. These are outdoors grown plants and as such they will have some ugly/damaged leaves - we do not remove these since they are still healthy and providing extra strength to the orchid. Great plant for terrariums, vivariums, glass orbs, vases, indoor growing on windowsills or greenhouses and outdoors in proper zones.
