MICRO, MINIATURE AND SMALL ORCHIDS

## BULBOPHYLLUM RETUSIUSCULUM

**Origin:** Asia

**Temperatures:** Warm to cold growing miniature size orchid species

**Light:** Bright shade

**Watering & Fertilizing:** Regular watering and fertilizing year-round, high humidity.

**General care:** Quite beautiful blooms on this miniature and easy to grow Bulbophyllum species. Grows best under warm to cool conditions, in bright shade, with high humidity. Can be grown potted or mounted. Excellent plant for terrariums, vivariums, frog encounters, windowsills, greenhouse growing and outside year-round in proper zones.
