

# TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

## BULBOPHYLLUM SUTEPENSE

**Origin:** Asia

**Temperatures:** Cool to hot growing miniature orchid species

**Light:** Shade

**Watering & Fertilizing:** Regular watering and fertilizing year-round, high humidity.

**General care:** Easy to grow miniature Bulbophyllum species with clusters of orange colored blooms. Grows best potted or mounted, high humidity, warm to hot temperatures and bright shade. Great for greenhouses, terrariums, vivariums, vases, frog encounters and in Florida outside year-round.
