

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

CYNORKIS ANGUSTISEPALA / GUTTATA

Origin: Madagascar

Temperatures: Cold to hot growing small / medium size terrestrial orchid species

Light: Bright shade / filtered light

Watering & Fertilizing: Regular watering and fertilizing in active growing season, goes completely dormant – no fertilizing and watering when in dormancy.

General care: This cute terrestrial species has beautifully colored blooms. These plants are completely without leaves from fall till spring, deciduous terrestrials culture is required - stop fertilizing after blooming and do not water during winter dormancy till new sprouts appear. Grows best under cold to hot conditions, in bright shade. Can be grown potted in well drained moist mix. Grow them regular way starting active growing care now. A great plant for indoor growing on windowsills or greenhouses and outdoors in proper zones.
