

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

DRACULA GORGONA x LOTAX

Origin: Cross

Temperatures: Warm to cold growing small orchid cross

Light: Bright shade or filtered LED light

Watering & Fertilizing: Regular watering and fertilizing year-round, high humidity, good quality water only (rain or R/O).

General care: Not many crosses in Dracula section, this one is definitely so far our favorite. Gorgeous huge blooms with monkey face lasting for weeks. Grows best under cool to intermediate conditions, in bright filtered light, good air movement and high humidity keeping lightly moist. Can be grown potted or mounted. Great plant for terrariums, vivariums, greenhouses and outdoors in proper zones.
