

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

LEPANTHES FELIS

Origin: Colombia

Temperatures: Intermediate to cold growing miniature size orchid species

Light: Shade

Watering & fertilizing: Regular watering and fertilizing year-round

General care: This devilishly looking bloom Lepanthes is great addition to any collection, we consider it brother to other devils like Lepanthes lucifer and Lepanthes quadricornis. Grows best under cool to intermediate conditions, shade, good air movement, high humidity and good quality water. Great plant for terrariums, vivariums, glass orbs and frog encounters. Great for indoor growing on windowsills or greenhouses.
