

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

LEPANTHES TSUBOTAE

Origin: Colombia

Temperatures: Cold to intermediate growing mini - miniature size orchid species

Light: Bright shade

Watering & Fertilizing: Regular watering and fertilizing year-round, high humidity, only good quality water.

General care: One of the most sought after Lepanthes species in any collection. Due to its requirement for high constant humidity, these do great in glass orbs, terrariums, vivariums and frog encounters. Grows best under cold to intermediate conditions, in bright shade or bright or shade, good quality water and weak fertilizing year-round. Can be grown potted or mounted. Spikes are sequential bloomers and re-bloom constantly year-round.
