

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

LEPTOTES PAULOENSIS

Origin: Brazil & Argentina

Temperatures: Hot to cool growing small size orchid species

Light: Bright shade

Watering & Fertilizing: Regular watering and fertilizing year-round.

General care: This is one of rarely seen Leptotes in cultivations. Terete-like leaves with stunning and large blooms, this particular one is whitish/violet/pinkish color with quite large bloom in compare to plant size. Grows best under cool to warm conditions, in bright shade, good air movement and good humidity letting slightly dry out between waterings. Can be grown potted or mounted. Great plant for terrariums, vivariums, glass orbs, vases, indoor growing on windowsills or greenhouses and outdoors in proper zones.
